

Above: North Union Street approaching University Avenue. The building at right is a church. **The recessed Parker Alley slots on North Union are the closest to REACH Home.** Use the REACH Home driveway for **quick-drop-offs only** at the rear door near Dimitri House. REACH Home is seen at the far left of this photo near orange diamond sign (now removed). **NOTE: Recent roadwork makes it possible to use curbside parking on the opposite side of North Union Street across from Parker Alley.** It is about a one hundred yard walking distance from these parking slots to the rear door of REACH Home.

The REACH Home 102 North Union Street driveway at left is for **quick drop-offs by donors and meal-servers.** Avoid creating bottle-necks. **Volunteers enter at the rear door entry off the driveway.** The main porch at the right side is now the main entrance for guest residents. Nearly all of the parking spaces accessible via this driveway are for use by Dimitri House (not REACH Home). **Avoid parking at nearby restaurant parking lots.** You will face consequences.
